Big Farmland Bird Count 2019

The Game & Wildlife Conservation Trust Big Farmland Bird Count runs from **February 8th–17th 2019**.

It takes just 30 minutes out on the farm from a vantage point of your choice.

You can do the short 30 minute count yourself or team up with a more experienced birder near you. It's a great way to see how birds are doing on your land in the middle of the winter and to demonstrate the benefits of the work you're doing to provide year round food and habitat for birds. Over 50 Herefordshire farmers took part last year and we hope to increase the number in 2019.

You can find out more about the Big Farmland Bird Count, register your interest in taking part, download or order recording forms at www.gwct.org.uk/farming/big-farmland-bird-count/

Beware of BPS Fraudsters who target farmers

Scammers approach farmers at this time of the year more than any other period because December is when a range of EU subsidies are paid. They have been known to make calls or send texts or emails posing as banks and other authorities, such as the police, and request money to be moved or personal details and passwords to be shared.

Please be vigilant and take note of the following advice to avoid being scammed:-

- Your bank, the police or the Rural Payments Agency (RPA) will never ask you to reveal your online password, PIN or bank account details or ask you to make a payment over the telephone.
- Never discuss your bank account details with someone you don't know, or open unknown or unexpected computer links or emails.
- If in doubt, call the organisation back, ideally on a different telephone, using a number you know to be official. You can usually find this on the organisation's website.
- Be cautious about what you share externally. Fraudsters use information such as social media posts to gain knowledge of a person's circumstances that will help them to scam victims.

If you suspect an attempted fraud or feel you have been the subject of fraud, you can contact:

- RPA's fraud referral team on 0800 347 347 or FraudInConfidence@rpa.gov.uk
- Action Fraud (the UK's national reporting centre for fraud and cybercrime) on 0300 123 2040

Herefordshire Soils - farmers needed to participate in arts project

My name is Marie-Pierre and I am making a documentary about soils in Herefordshire as part of my Master's Degree at Hereford College of Art. I want to document the transformations that soils in Herefordshire have undergone, and their possible futures. I would be grateful for your participation and I would like to briefly hear the story of your soils, take some samples and listen to your views about issues such as natural flood management. In return for your participation I will send you the collated and anonymised results from all of the farms and give you access to the documentary film.

My advisory group includes members of Farm Herefordshire, Perry Walker (a quantitative analyst) and my degree is being supervised by Dr D Pryde-Jarman.

I can meet you when it suits until my deadline of April 2019. Please e-mail mp95leroux@hotmail.com

Update from the Wye & Usk Foundation

Pesticide Project:

We are still out and about visiting fields identified by Severn Trent as high risk for metaldehyde use and providing advice on pesticide handling and disposal. If you would like help to improve your pesticide handling area please get in contact.

New Natural Flood Management Project:

Funded by the Environment Agency & Herefordshire Council we will be providing advice and support to farms in target catchments that could help to reduce flooding of properties downstream. This could involve addressing compaction issues in your soil, using cover crops to protect bare ground, holding back water in streams, tree planting – all sorts of options. We will be working in the following streams over the coming months: Cheaton, Ridgemore, Bodenham, Pentoloe, Red, Twyford, Tedstone, Dulas and Yazor. If you farm in one of these catchments and would like to know more please get in touch.
